<b>C&amp;T Designs</b> <a href="https://www.candtdesigns.com">https://www.candtdesigns.com</a> We precision coil and cut our rings with a very thin jewelers saw. This means only a small amount of material is removed to make the roundest ring you can get. All rings are tumbled in several steps to remove any burrs and lubricant while leaving them with a blinding shine. All of our ring measurements are actual, not what we use to wrap them on. This effectively removes 'springback' so you can mix metals if you wish. We randomly check each batch and update our information as needed to ensure you have accurate information. Rings are made using standard wire gauge (SWG) wire with the exception of 20g, square wire and precious metals.	<b>Colorado Springs, Co • USA</b>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Chainmail Joe</b> <a href="http://www.chainmailjoe.com">http://www.chainmailjoe.com</a> We are a wholesale supplier of Chainmail jump rings, primarily in Bright Aluminum and Anodized Aluminum. Most ring sizes are sold by the half pound or full pound which leads to much lower overall costs for those that want a lot of great rings at a time! All of our rings and tools are available on our website.	<b>Big Lake, MN • USA</b>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<b>C&amp;T Designs</b> <a href="https://www.candtdesigns.com">https://www.candtdesigns.com</a> We precision coil and cut our rings with a very thin jewelers saw. This means only a small amount of material is removed to make the roundest ring you can get. All rings are tumbled in several steps to remove any burrs and lubricant while leaving them with a blinding shine. All of our ring measurements are actual, not what we use to wrap them on. This effectively removes 'springback' so you can mix metals if you wish. We randomly check each batch and update our information as needed to ensure you have accurate information. Rings are made using standard wire gauge (SWG) wire with the exception of 20g, square wire and precious metals.	<b>Colorado Springs, Co • USA</b>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Chainmail Joe</b> <a href="http://www.chainmailjoe.com">http://www.chainmailjoe.com</a> We are a wholesale supplier of Chainmail jump rings, primarily in Bright Aluminum and Anodized Aluminum. Most ring sizes are sold by the half pound or full pound which leads to much lower overall costs for those that want a lot of great rings at a time! All of our rings and tools are available on our website.	<b>Big Lake, MN • USA</b>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<b>C&amp;T Designs</b> <a href="https://www.candtdesigns.com">https://www.candtdesigns.com</a> We precision coil and cut our rings with a very thin jewelers saw. This means only a small amount of material is removed to make the roundest ring you can get. All rings are tumbled in several steps to remove any burrs and lubricant while leaving them with a blinding shine. All of our ring measurements are actual, not what we use to wrap them on. This effectively removes 'springback' so you can mix metals if you wish. We randomly check each batch and update our information as needed to ensure you have accurate information. Rings are made using standard wire gauge (SWG) wire with the exception of 20g, square wire and precious metals.	Colorado Springs, Co • USA	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Baltimore, MD • USA	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>C&amp;T Designs</b> <a href="https://www.candtdesigns.com">https://www.candtdesigns.com</a> We precision coil and cut our rings with a very thin jewelers saw. This means only a small amount of material is removed to make the roundest ring you can get. All rings are tumbled in several steps to remove any burrs and lubricant while leaving them with a blinding shine. All of our ring measurements are actual, not what we use to wrap them on. This effectively removes 'springback' so you can mix metals if you wish. We randomly check each batch and update our information as needed to ensure you have accurate information. Rings are made using standard wire gauge (SWG) wire with the exception of 20g, square wire and precious metals.	Colorado Springs, Co • USA	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

West Hollywood, CA • USA	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<b>C&amp;T Designs</b> <a href="https://www.candtdesigns.com">https://www.candtdesigns.com</a> We precision coil and cut our rings with a very thin jewelers saw. This means only a small amount of material is removed to make the roundest ring you can get. All rings are tumbled in several steps to remove any burrs and lubricant while leaving them with a blinding shine. All of our ring measurements are actual, not what we use to wrap them on. This effectively removes 'springback' so you can mix metals if you wish. We randomly check each batch and update our information as needed to ensure you have accurate information. Rings are made using standard wire gauge (SWG) wire with the exception of 20g, square wire and precious metals.	Colorado Springs, Co • USA	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Chainmail Joe</b> <a href="http://www.chainmailjoe.com">http://www.chainmailjoe.com</a> We are a wholesale supplier of Chainmail jump rings, primarily in Bright Aluminum and Anodized Aluminum.
